

**Citizen Voice's SAFELY OUT Project  
Remembering 9/11...Protecting Our Community  
Bayside Church • 9/11/06**

Over 400 citizens filled the auditorium at this 5th anniversary tribute to honor the memory of 9/11 and to help protect our families and communities in the future.

Gary Dietrich interviews a local Sacramento woman who was among the survivors of the World Trade Centers attack.

Sacramento County Office of Emergency Services Director Rick Martinez (pictured right), shares his first-hand account of managing all of the non-NYC first responders at the WTC following the terrorist attacks. Martinez joined other high-profile speakers and guests.

Following the 9/11 tribute, Gary Dietrich presents the SAFELY OUT™ Project. Here he holds the door hanger...that indicates to those concerned that people are safely out of their homes...a key part of this neighbor-helping- neighbor evacuation project.

The Sacramento Children's Choir moved the audience with a touching performance to offer hope for protecting ourselves from future disasters.
