

## Citizen Voice's SAFELY OUT Project Angora Fire June 2007

With generous donations from our sponsors, we headed up to help the residents in distress during the Angora Fire in Tahoe, Ca. While there, we distributed 1,200 SAFELY OUT™ kits to those vulnerable residents directly in the line of the fire and still on watch for possible evacuation.

At the community meeting for the residents impacted by the fire, we handed out kits and offered hope.

As we leave town after the kit distribution, smoke still appears in front of our van from the still active fire just a few miles away.

SAFELY OUT™ President Gary Dietrich broadcasts on a Tahoe radio station to discuss the Citizen Voice SAFELY OUT™ kit distribution.

Fire trucks and crews filled the town throughout Lake Tahoe.
