

Citizen Voice's SAFELY OUT Project Outreach and Education Efforts

Outreach and education are a vital part of the project. Those efforts have included numerous events – large and small.

Above, you can see the SAFELY OUT™ launch video being played at Arco Arena where Citizen Voice's SAFELY OUT™ project was featured at Come Together 2008, one of the largest church gatherings to take place in Northern California last year.

Steamatic of Sacramento, an ongoing project supporter, presents Gary Dietrich a check at the Sacramento Claims Association speaking event last August...one of many such events we've taking part in this past year and a half.

Citizen Voice President Gary Dietrich presents details about the project to the crowd of 13,000 area residents.

Currently funds are being sought for a volunteers/outreach coordinator to handle the numerous speaking requests we receive.

SAFELY OUT™ presented at a Soroptomist International District Meeting in March of 2007.
